

Changing health care documentation

“Intelligence First”

Maximizing MHAC Revenue

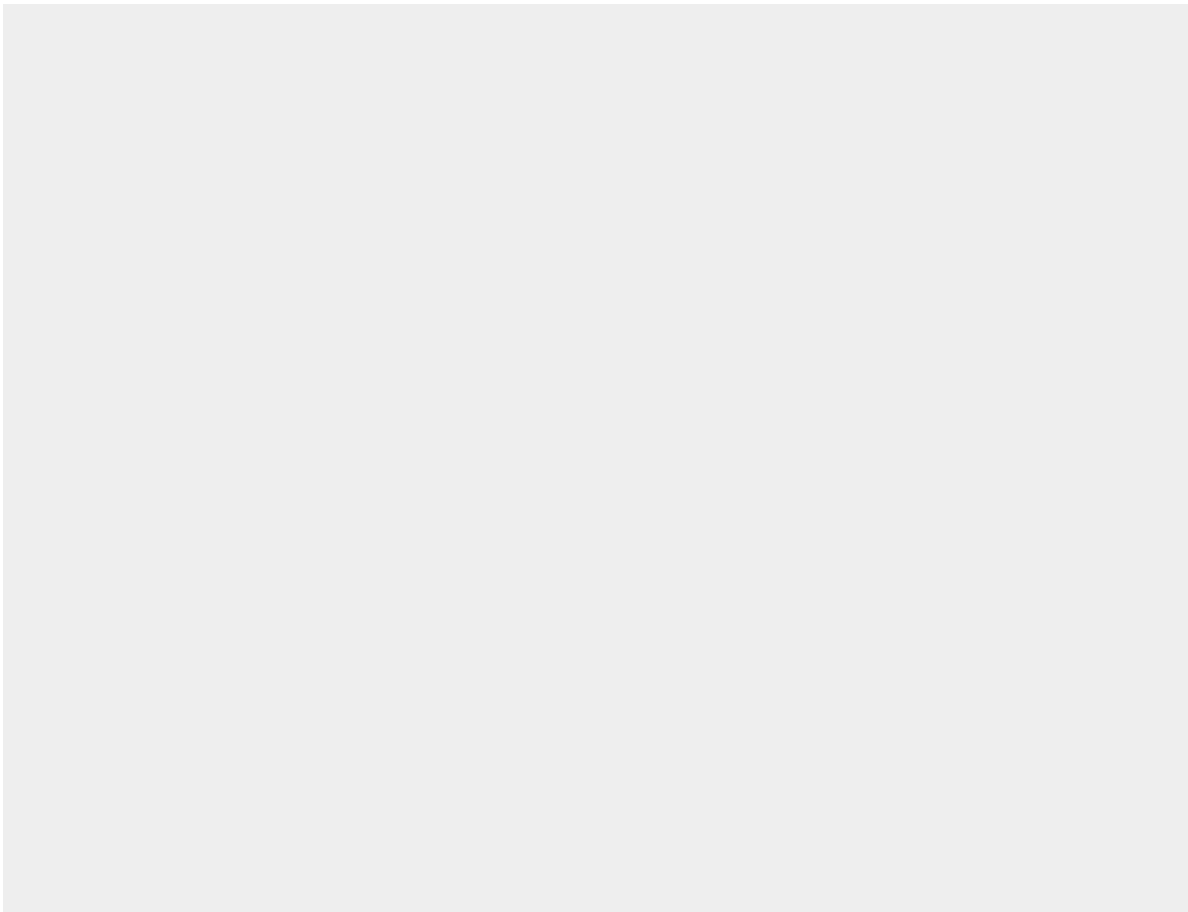

Lorem ipsum

Identifying and prioritizing hospital accounts that have Maryland Hospital Acquired Conditions (MHACs) that should be targeted by Clinical Documentation Excellence (CDE), Coding and Quality teams with the goal of maximizing reimbursements for Johns Hopkins.

Documenting what matters

Because documentation can get complex.

With an ever increasing focus on quality measures and value based reimbursement, it's vitally important to have a smart, intuitive and prioritized patient review process to focus on the documentation that matters most while a patient is still at the hospital.
